ABOUT THE CONFERENCE

The International Conference on Sustainable Multidisciplinary Development (ICSMD-2026) is a premier global forum that aims to bring together researchers, academicians, scientists, industry professionals, policymakers, and students from diverse disciplines to exchange knowledge, present innovative research findings, and discuss emerging challenges and opportunities related to sustainable development. The conference recognizes that today's complex global issues—including climate change, technological transformation, healthcare advancement, economic growth, education reform, and social development—require multidisciplinary approaches and collaborative solutions. ICSMD-2026 provides a platform for integrating knowledge from science, engineering, management, social sciences, humanities, health sciences, and emerging technologies to foster sustainable and inclusive development.
